

## CTI Training Dates

CTI is aware of the difficulties that many organizations have at year end. In assisting you with this, CTI is able to invoice you in the current fiscal year and if desired provide services at your convenience in the new fiscal year. This could include any of the training programs offered in the list below for you, your staff and volunteers. If you have special needs CTI can also design a specific training program and implement training that is contextualized to your organization.
